

CHILDREN SALUTE FLAG AT PETWORTH

Gift of D. A. R. Floats From
Playground Staff After Ex-
ercises.

A large American flag blowing in the breeze from the flag pole of the Petworth playgrounds was saluted this morning by every youth who entered the recreation spot. The flag was unfurled with appropriate exercises by the school children, officers of the District schools and citizens of Petworth last night.

The gift of Wendell Wolf Chapter, D. A. R., the flag was formally presented to the playgrounds committee by Miss Bertha F. Wolfe. Benjamin W. Murch, supervisor of the playgrounds, accepted the emblem with a brief speech of appreciation. Charles I. James, president of the Petworth Citizens' Association, then presented the flag pole, a gift of the association.

With the singing of "The Star-Spangled Banner" by the 300 present, Gerald Homiller raised the flag. Other patriotic songs and national anthems were sung by the large audience to the accompaniment of an orchestra of instruments and the flag was hoisted to the top of the pole.

William F. Gude, president of the Chamber of Commerce, introduced the man who has done a tremendous amount of good for Petworth, said playgrounds were to improve the lives of the children in the same measure as the school was necessary to improve the minds of the youth.

Robert Haycock, supervising principal of schools for the Third Division, and chairman James followed with brief remarks.

The Petworth playgrounds are in charge of Miss Nellie Boyd Taylor and Miss Anna Smallwood.

THE FISHERMAN'S GUIDE

Weather Forecast—Fair tonight and tomorrow.

Condition of Potomac—Clear.

Winds—Moderate, north.

High Tide—1:15 a. m.—1:45 p. m.

Low Tide—8:07 a. m.—8:12 p. m.

Sun Rises—5 a. m.

Sun Sets—7:12 p. m.

Early morning excursions to choice fishing spots on the Potomac were taken today by numerous followers of Isaac Walton. Some excellent catches of bass were made, and a few perch were caught.

And then there were several early rising fishermen who failed miserably in coaxing their finny friends from the river, but each of these enjoyed the exhilarating effects of the early morning rising and the trip to the banks of the stream against the brisk fall-like breeze.

The popularity of the upper river seemed to be on the wane this morning, for many of the tackle crew invading the Eastern Branch, and the Dyke between Alexandria and Mt. Vernon.

The following places bear the reputation of being good fishing grounds: (1) "The Parlor," a pool above Boiling Rock, straight out from Fletcher's. The water is deep and swift, and the pool bears its name because the fish are known to congregate there. (2) Middle Rock above the Chain Bridge. It is well to arrange to have a boat taken up on the flood tide, as it is impossible to make headway against an ebb tide. (3) "The Hens and Chickens," off the point of the powerhouse near Fletcher's; water 40 to 50 feet deep and very swift. Care must be exercised. (4) Near the "Ladder," at the Chain Bridge, opposite the branch on the Virginia side. (5) Opposite the point of Annapolis Island, along the head of the river. Water about thirty feet deep. (6) Near the Thurston steel plant, at junction of Potomac and Eastern Branch. (7) The Tidal Basin. Boats and bait may be obtained at the Speedway boatouse, at the western end of the basin. (8) The Dyke between Alexandria and Mt. Vernon. Boats may be obtained near car station. (9) Occoquan, above the bridge.

Pennsy's New Signal System Nearly Ready

By September 1, the main line of the Pennsylvania railroad between Pittsburgh and New York, and Philadelphia and Washington will be equipped with automatic block signals. At a cost of \$5,000,000, the road has within the past three years equipped 22 miles of its main line with automatic signals, enabling the company to have more four-track line operated under automatic signals than any railroad in the world.

The signal system of the road east of Pittsburgh and Erie, represent an investment of \$15,000,000. It takes a force of 1,800 men to maintain the system, and the annual cost of keeping the signals in order is \$1,500,000.

Thin Folks Who Would Be Fat

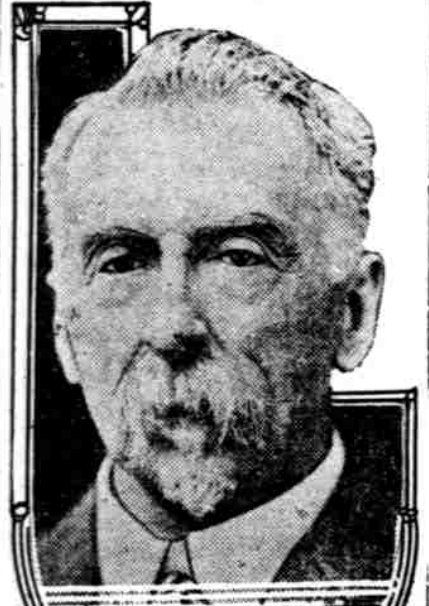

Increase in Weight Ten Pounds or More

A Physician's Advice

"To certainly give most anything to be able to eat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste. To correct this condition and to produce a healthy normal amount of fat, the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strengthening fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood, and its rapid effect is remarkable. Reported gains of from ten to twenty pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by the Jas. O'Donnell Drug Stores and other good druggists everywhere, and every package contains a guarantee of weight increase or money back.

Caution—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

AT 76TH MILESTONE

SENATOR HENRY A. DU PONT, The Delaware Senator is seventy-six years old today and is the recipient of scores of congratulatory telegrams and the felicitations of his colleagues in the Senate.

Secretary Redfield Announces Changes

The promotion of Rudolph J. Wig to the position of engineer physicist at \$5,000 in the bureau of standards was announced by Secretary of Commerce Redfield today. Joseph C. Pearson, assistant physicist, was promoted to the \$1,800 grade. Cyril S. Taylor, laboratory assistant, to \$1,200. Raymond Davis was promoted to photographer at \$1,200 and George T. Eitor, skilled woodworker, to \$1,000. Robert Gehr, fireman at \$720, has resigned.

Masons Pay Tribute to Alexander McKerich

Tribute was paid last night by Knights Kadosh, of the Scottish Rite Masons, thirty-second degree, who died Sunday night. The services were at the Scottish Rite Cathedral, Third and E streets, at midnight.

Robert de Bruce Council, Knights Kadosh, had charge of the funeral services, and Albert Pike Camp attended in a body.

A quartet composed of Mrs. Humphrey, Mrs. Deyo, Mr. Backing, and Mr. Humphrey, sang.

Kill Every Fly and Save Your Health

The total number of flies that are permitted to live in the city of Washington during one day are sufficient to wipe out every resident in the longest and most thickly populated square in Washington.

Enough flies to bury the entire earth will be the extent of the 1914 crop of the insects unless continued war against the pests prevails by all Washington.

Scientists have determined that the smallest fly is capable of carrying 6,000,000 germs on its feet and wings, and the habit of the insect is to deposit these disease-breeders on food and liquids that ultimately reach humanity.

The death of one fly, therefore, is a great boon to sanitation and means a decrease in the mortality of any community. The death of one fly means a diminution of millions in the total breed of the insect.

Two weeks are all that is needed for a fly to pass from the egg stage to a germ-carrying, irritating, intolerable pest. The time to kill the fly is before it develops into this nuisance.

This time is when the mother fly is right in your house, when the pest is on your premises, when it merits death by buzzing about your face and your food.

KILL THE FLY TODAY and your health is assured tomorrow.

B. and O. Employees at Thirty-Second Reunion

Indications are that more than 5,000 employees of the Baltimore and Ohio Railroad Company from this city, Baltimore, Frederick, Mt. Airy and other places in this section and from as far West as Pittsburgh will attend the Jennie Smith picnic today at Island Park, Harpers Ferry.

The affair is an annual one in which hundreds of employees of the company participate each year. This year's picnic bids fair to eclipse any other affair of its kind in the history of the road.

Word has gone down the line that Vice President A. W. Thompson, the chief operating officer of the company, with his entire staff, including C. W. Galloway, general manager, F. L. Stuart, chief engineer, P. H. Clark, superintendent of motive power, Earl Stinson, engineer maintenance of way, and other high officials will join with the men of the rank and file to make the thirty-second annual outing eclipse all previous ones.

Girdle of New Gum on Trees to Check Insects

Trees in Potomac Park, and other parks under the control of the office of public buildings and grounds are wearing a new-fashioned girdle. This girdle is of dark brown color, and is worn about the waist of the tree, or about half way from the ground to lower branches.

The girdle is of a new gum that never hardens, and keeps caterpillars, and other insects from climbing the trees and damaging foliage.

She Steals Morphine.

The police today warned all druggists in the District against a colored woman who has adopted a novel method of obtaining morphine. The woman, apparently familiar with the arrangement of a drug store, makes an excuse to go back to the counter, and helps herself to a quantity of morphine.

W. J. Kerfoot, 104 Seventh street north-west, reported the woman came in his store yesterday and stole a bottle containing over two ounces of the drug.

Changes Are Announced Today at Big Printery

A number of important changes, including transfers, resignations and appointments in the personnel of the Government Printing Office force was announced today as follows:

Appointments—William J. Holohan, emergency steamfitter; Frederick I. Nobles, compositor, reinstatement; Joseph I. Collier, skilled laborer, reinstatement.

Transfers—Mrs. Annie C. Allen, clerk, \$500 to \$1,000, office of superintendent of documents; Andrew J. Glosner, clerk, \$840 to \$1,000, office of accountant; Edward W. Morcock, monotype keyboard operator, from night to day force; Miss Annie H. Mater, machine operator at \$2 1/2 cents an hour to skilled laborer at 25 cents an hour, ruling and sewing section; Frederick D. Will, canteen helper, monotype section, from night to day force; Jonas Vernon, unskilled laborer, press division to forwarding and finishing section; Raymond E. Bunbury, temporary skilled laborer, forwarding and finishing section to press division.

Federation of Colored Women Names Officers

At a meeting of the Federation of Colored Women held at St. Luke Hall last night, the following officers were elected for the ensuing year: Honorary president, Mrs. L. N. Ross; first vice president, Mrs. Susie Fountain; second vice president, Mrs. Mary Sewall; secretary, Mrs. Julia Mason Layton; assistant secretary, Mrs. Lizzie Snelson Lee; treasurer, Mrs. C. H. Steptean; organizer, Mrs. Marie Montgomery; press correspondent, Dr. J. P. H. Coleman; chaplain, Mrs. Fannie Waugh Jones; delegates to the national convention, Miss Marie A. D. Madre and Dr. J. P. H. Coleman; alternates, Miss Cora B. Mason and Miss Margaret Usery.

Two Consuls Nominated.

The President yesterday nominated, to be consuls, Arthur J. Clare, of Washington, at Port Antonio, Jamaica; Cornelius F. Smith, Jr., of Colorado, at Bluefields, Nicaragua.

SENATE NEARS VOTE ON TRUST MEASURES

With But Few Trying to Delay
the Bill, Final Action Is Possible Tonight.

The Senate is getting near to a vote on the first of the trust bills, the interstate trade commission measure.

With only a few Senators showing a disposition to delay the bill, Democratic and Republican leaders this morning predicted a vote before the end of this week. Some thought a vote this evening possible. Senator Newlands said he hoped for a vote this evening.

Once the trade commission bill is out of the way, the Clayton bill will be brought forward and hurried along. The trust bills, it is generally predicted, will be out of the way before the end of August or by September 1, at latest.

A conference of Senators having amendments to the trade commission bill was held in the Senate Chamber last night. The court review question was considered. The different propositions were referred to Senators Walsh and Pomerene to make a report on them. Senator Cummins contends for a restricted court review. Others want a broad court review.

If there is a broad court review of the trade commission's findings, its usefulness will be greatly minimized. Discussion of the bill proceeded today. Senator Sutherland spoke at length against the bill.

Police Seeking Girl Missing Since Sunday

The police today sent out an alarm for Irene Maynette, aged seventeen, who has been missing since last Sunday from her home, 1446 W street, southeast. The girl told the police she thought she might have left the city with a girl friend.

Miss Maynette also disappeared last April. Police of the Fifth precinct located her at the home of a friend a few days later.

Modern Woodmen to Go To Beach on Outing

The Modern Woodmen of America of the District will make an excursion to Chesapeake Beach tomorrow. It is expected to be the largest gathering of Woodmen ever assembled by the District chapter.

An athletic program, featured by a ball game between teams from Talbot and Lincoln Camps, will be given, and a competitive drill will be held for the uniformed degree staffs of the various camps.

The following camps will be represented at the outing: A. R. Talbot, Columbia, West End, Lincoln, Central, and Potomac.

Kellogg's WAXTITE Package Endorsed by Men Who Know

48 State and Municipal Boards of Health Have Endorsed Kellogg's Waxtite Package

Kellogg's Toasted Corn Flakes could not be made any better. But the Waxtite package brings the famous flakes to your table with crispness a little more pronounced, freshness absolutely assured and flavor unimpaired.

No moisture, no dust, no odors, nothing that could possibly affect the quality of Kellogg's, can get past that Waxtite seal.

W. K. Kellogg

To avoid disappointment, don't merely ask your grocer for toasted corn flakes, but say "Kellogg's Waxtite" and look for this signature.
